SUMMARY

UI/UX Designer and UI Developer with 3+ years of experience taking products from Figma to production. I design user flows and design systems, then build them as responsive, accessible interfaces in React, Next.js, and Tailwind CSS. Experience spans healthcare, ERP, maritime logistics, and web platforms, with a focus on visual hierarchy, component architecture, and smooth handoff between design and engineering.

SKILLS

Design & UX: Figma (Auto Layout, Design Systems, Variables/Tokens, Dev Mode, Prototyping), Wireframing, User Flows, Responsive Design, Adobe Illustrator

Frontend UI: React, Next.js, Tailwind CSS, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS/Sass, Bootstrap, Framer Motion

Collaboration & Quality: WCAG Accessibility, Cross-Browser Testing, REST API UI Integration, Git/GitHub, Peer Code Reviews, AI-Assisted Prototyping (Cursor)

PROFESSIONAL EXPERIENCE

UI Developer — Chaavie Solutions

Jun 2023 – Jul 2026 | Kozhikode, India

- Designed user flows and responsive interfaces in Figma, then built reusable component-based UI in React, Next.js, Tailwind CSS, JavaScript, and CSS3 across multiple products.
- Created and maintained a shared component system and design-token pipeline (spacing, color, typography) that kept styling consistent across dashboards and web apps.
- Designed and built the UI for Doctor One (healthcare web platform and admin views, including 30+ mobile screens) and Happy ERP (multi-module inventory, catalog, and sales interface).
- Partnered with backend engineers to connect UI screens to REST APIs while ensuring WCAG accessibility and cross-browser compatibility.
- Mentored junior developers on Figma-to-code handoff.

UI Developer (Contract via Chaavie Solutions) — 6solve IT Services

Jan 2025 – Aug 2025

- Built three data-rich maritime logistics dashboards (Export, Import, and Maintenance & Repair) in Next.js and Tailwind CSS using CSS Grid, Flexbox, and modular React components.
- Implemented Figma design tokens and component specs in Agile sprints alongside UX designers and product managers, and took part in peer code reviews.

UX/UI Designer & Developer (Intern) — Futura Labs

Nov 2022 – Mar 2023

- Designed responsive web and mobile screens, wireframes, and interactive prototypes in Figma.
- Implemented client UI flows in HTML5, CSS3, and JavaScript.

SELECTED PROJECTS

Zenoway — Design & UI Development

zenoway.online | Figma, Next.js, Tailwind CSS, TypeScript

- Designed and built a direct-apply job portal and admin dashboard end to end, removing mandatory account signups to make applying faster.

Kannur University Redesign — Concept Redesign

Figma, Next.js, Tailwind CSS

- Self-initiated UX/UI modernization focused on clearer information hierarchy and better mobile usability.
