SUMMARY

UI Developer with 3+ years of experience building responsive, component-based web interfaces with React.js, Next.js, JavaScript (ES6+), HTML5, and CSS3. Implements Figma and Adobe XD designs as clean, reusable UI components, integrates screens with REST APIs, and debugs UI issues with browser DevTools across browsers and devices. Works in Agile teams with designers, product managers, and backend engineers, and takes part in code reviews.

SKILLS

Core Web: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS/Sass

Frameworks & Libraries: React.js, Next.js, single-page application architecture, reusable component libraries

Styling & Responsive Design: Tailwind CSS, Bootstrap, Flexbox, CSS Grid, mobile-first layouts, design tokens, theming

APIs & Data: REST API integration, Supabase

Debugging & Quality: Browser DevTools, cross-browser testing (Chrome, Firefox, Safari, Edge), WCAG accessibility, code reviews

Tools & Workflow: Git/GitHub, Figma, Adobe XD, Agile/Scrum, AI-assisted development (Cursor, Antigravity)

PROFESSIONAL EXPERIENCE

UI Developer — Chaavie Solutions Jun 2023 – Jul 2026 | Kozhikode, India

- Built responsive, component-based interfaces and data-rich admin dashboards using React.js, Next.js, JavaScript, HTML5, and CSS3 across multiple products.
- Built and maintained a reusable component system and design-token pipeline, keeping styling consistent and easy to update across products.
- Integrated UI screens with backend REST APIs in collaboration with backend engineers.
- Debugged styling issues and UI bugs with browser DevTools, and fixed cross-browser and responsive inconsistencies across Chrome, Firefox, Safari, and Edge.
- Translated Figma wireframes and prototypes into clean, semantic, pixel-perfect front-end code that follows brand and design standards.
- Took part in code reviews, followed WCAG accessibility standards, and mentored junior developers on Figma-to-code workflows.

UI Developer (Contract via Chaavie Solutions) — 6solve Jan 2025 – Aug 2025

- Developed modular, reusable React.js components for a single-page SaaS application, using shared, well-documented UI patterns.
- Implemented Figma design tokens and component specs as scalable, design-consistent front-end code.
- Worked with UX designers and product managers in Agile sprints; improved code quality through peer code review.

UX/UI Designer & Developer (Intern) — Futura Labs Nov 2022 – Mar 2023

- Designed responsive web and mobile interfaces in Figma, then implemented them in HTML5, CSS3, and JavaScript.
- Created wireframes and interactive prototypes for client user flows, applying typography, spacing, and colour systems.

PROJECTS

Zenoway — Job Portal (Figma, React, Next.js, TypeScript)
Designed and built a complete job portal as a solo React/TypeScript single-page application, with hand-crafted CSS micro-interactions.

Doctor One — Healthcare Platform (Figma, React)
Built responsive, pixel-perfect UI for healthcare web applications and administrative dashboards, including 30+ mobile screens.

NVOCC Dashboard (Next.js, Tailwind CSS)
Built three data-rich dashboards (Export, Import, Maintenance) using CSS Grid, Flexbox, and reusable components.

Blood Donation App (Figma)
Designed accessible mobile UI flows for donor matching, validated through interactive prototypes.

EDUCATION

BSc Computer Science — Hi-Tech Art & Science College, Calicut University | 2016 – 2019
